

Acknowledgements

This booklet would not be possible without the generous help, guidance, and patience of many volunteers, scientists, and river guides that assisted me in the collection of this information.

A special thanks to Larry Stevens for his advice and instruction in the use of the Solar Pathfinder™; to Chris Franke for helping me collect data on more than three dozen new campsites during two High Desert Adventures Trips, and introducing me to many of his fellow guides; to Kenny Baker for providing needed missing data, proof-reading, and shared inspiration on creating a "Book of Shade", and to the National Park Service Grand Canyon Research Office and Dan Cassidy of Five Quail Books for providing financial support to mass produce these almanacs.

My appreciation and thanks to the following individuals that helped me in this endeavor: Dan Adikes, Cynthia Amador, Tony Anderson, Roy Averill-Murray, Dave Baker, Liz Baldwin, Jeff Behan, Jeff Bennett, Max Bird, Steve Bledsoe, Alison Bowden, Chris Brod, Nikolle Brown, Kirk Burnett, Annette Campe, Roger Cogan, Myron Cook, Kim Crumbo, "Young" Tim Dale, Neicia Davidson, Nute Davis, Renee Davis, Brian Dierker, Roz Driscoll, Billy Ellwanger, Merrienne Etter, Robert Ferrell, Carol Fritzingler, Alex Gomez, Miguel Gomez, Brian & Eve Hanson, Joe Hazel, Bruce & Nancy Helin, Joy Hernbrode, Jack Herz, Jennifer Hodge, Jim Hoffman, Mike Huckaby, Lainie Johnstone, Matt Kaplinski, John & Mariann Koloszar, Ken Kotalik, Cindy Krzmarich, Dennis Kubly, Elaine Leslie, Lorry Levine, Casey Lott, Mike Mallett, Mark Manone, Matt Manone, Jerry Martinez, Ric & Jeanie Mayer, Vicky Meretsky, Verma Miera, Geoff Mulhstein, Lars Niemi, Nels Niemi, Clay Nelson, Jodi Niccum, Bill Parker, John Parker, Dirk Pratlley, Mike Randolph, Kirsten Rowell, Joe Shannon, Mike Shaver, Sam Shelley, Leann Skrzynski, Mark Sleight, Della Snyder, John & Joanne Sorensen, Robert Sorensen, Sharon Spatz, Lew Steiger, Tom Swartz, Paula Swenski, Melinda Thompson, Jake Tiegs, Randy Tucker, Mike Venditto, Eric Wallace, R.V. Ward, Eric Wilson, Kevin Wilson, and Mike Yard.

The Boatman's Almanac 2000

By Jeff Sorensen July 2000 Edition

A compilation of monthly sunrise & sunset times
for campsites & cool places in Grand Canyon

Preface

July 2000 Edition

The information in this booklet was recorded from an instrument called the Solar Pathfinder™. Architects & engineers use this modern-day “sundial” to measure the amount of solar energy that affects a specific location.

Using the Solar Pathfinder™ we can predict the average monthly sunrise & sunset times **within a half hour accuracy** (+/-) for each location recorded. Discrepancies in actual sunrise & sunset times may result from changes in seasonal tree canopy, topographical features of canyon walls, time of the month, & the exact location where initial readings were taken. In most cases, Pathfinder readings were taken in the **center of the beach or camp “kitchen”** where most people would congregate.

It's my intent to provide a useful guide for Grand Canyon river runners in choosing campsites that offer early summer shade or early winter sunlight. Hikers, backpackers & photographers may also find this information useful for optimizing available daylight.

This is a free publication--my gift to the river guide community as a way of saying thanks. “Shade Up!”
