## **UTARDIAN TO CLEAN UP MAILING LIST**

*The Utardian* announced that anyone who wishes to continue receiving *The Utardian* must inform whoever they receive it from that they wish to continue their free subscription by email reply. *The Utardian* will publish names and addresses of those who do not respond to continue their subscription as a free human waste (groover) dump site and they will also be charged a non-subscription fee of \$500.

## **BUREAU OF WRECLAMATION DISCOVERS MORE WATER**

Bruce Bartlett, Acting Area Manager of the Provo Bureau of Wreclamation SAYS THE Bureau has discovered thousands of more acre feet in the Colorado River Drainage.

The previously unrecorded water was discovered recently when Bartlett took his first ever wade into the river near Moab, Utah. "I discovered that my feet, as well as my knees got wet," he said. "That meant that, because my feet were on the bottom of the river, and my knees near the surface, there was water under the surface." "So we put in several hundred water gauges and added them to the old totals, and owalla, thousands of acre feet we never realized were there.

"That, of course, means that the Bureau can now allocate additional water to welfare farmers growing alfalfa for tax deductions, encourage more golf courses around St. George, and piss away tons of more water without any moral remorse. It's all science" Bartlett mused.

## **RIOT BREAKS OUT AT LOMA BOAT RAMP**

BLM reported a 4<sup>th</sup> of July riot at the Loma boat ramp on the Colorado River. During the unfortunate event several boaters were critically injured and hundreds transported to area hospitals.

Apparently a local boating club, called the Jets interfaced with a rival club the Sharks. Various dangerous implements were used by both clubs in the melee that followed the initial encounter. Hundreds of Jets blowing river whistles, apparently inspired by the recent World Soccer games were faced off by throw bag wielding Sharks.

While both groups fought, BLM Rangers quickly departed for Black Rocks, where reports of overcrowded camping had been received. Soon after the departure of the Rangers, both groups turned on Centennial Canoe, an outfitter serving breakfast to clients on most of the beach. It has been reported that the gangs chased Centennial's clients around the beach with classic 1950's automobiles, eventually trapping them in the porta potties that have been declared as EPA Hazardous clean up sites.

BLM reported that all is well, however, they have been diligently working on a management plan to require permits and fees.

**DINOSAUR MONUMENT TO ISSUE PARKING CITATIONS ~**

Monument Rangers, armed with calipers and survey equipment will now begin citing parking violations, where vehicles are more than 6” beyond undesignated areas.

Warnings have already been issues at Split Mountain and Deerlodge. In the Parking Service, an inch is a mile, a Monument spokesperson said.

.....  
**MOFFAT COUNTY TO ISSUE TICKETS ~**

The Moffat County Sheriff Patrol will be issuing speeding tickets on CO Highway 318 from Maybell, CO to the State Line. Apparently complaints from local farmers, driving farm equipment at 5mph have complained about river runners driving too fast and scaring them on this remote highway.

Other complaints have been recorded by an occasional cow and elk. “Slow down or pay” said an officer, “If Interior Agencies can make you pay to use their rivers, we can make you pay to use our highways. Look at it as just another fee.”

.....  
**EAT PARTY CONSUMATED AT SPLIT MOUNTAIN**

Two hundred private and commercial river runners, and their customers met recently at the Split Mountain Boat Ramp to initiate the EAT Party in response to the repugnant TEA Party.

The EAT Party will honor antichrist, John Adams as its mascot. Party members will eat, rather than vote in all upcoming elections. In addition members will swear

off all reading, studying and other forms of self-education. Members will only rely upon FOX News for humorous entertainment, but refrain from laughing at remarks directed at race, color, creed, sexual or religious groups and individuals. Instead members will post loving remarks on Facebook regarding any and all insults.

**DRIVER LICENSE FRAUD**

Recently several river runners have found that someone has fraudulently used their driver’s license to purchase porn, liquor, and subscriptions to *The Watchtower*. All people holding drivers’ licenses are encouraged to check their licenses against recent fraudulent uses at the site below:
